

PARKER™
SEMINARS

Parker Seminars supports the Chiropractic Medicare Coverage Modernization Act of 2019 (H.R. 3654)

For almost 50 years, Medicare beneficiaries have only been covered for one chiropractic service, manual manipulation of the spine.

Lack of Medicare coverage means seniors and other Medicare patients who require services are forced to either pay their chiropractors out of pocket or visit a provider whose standard procedures may involve drugs, or other treatment options that are often unnecessary.

The Chiropractic Medicare Coverage Modernization Act of 2019 (H.R. 3654), is a bill introduced in the U.S. House of Representatives that will allow Medicare beneficiaries to fully access the chiropractic profession's broad-based, non-drug approach to pain management. Non-drug approaches to pain management have become an important strategy in national efforts to stem the epidemic of prescription opioid overuse and abuse.

Additionally, while the bill increases access and coverage for Medicare beneficiaries, it does not add any new services or remove services currently covered under Medicare.

It is vital that your federal representative hears from patients about the importance of increased access to chiropractic care. Urge your representative to co-sponsor H.R. 3654 and thank them for their support of Medicare patients.

H.R. 3654 is bipartisan legislation, addressing a nationwide issue. Access to chiropractic care will benefit more than 55 million Americans.

Visit [acatoday.org/takeaction](https://www.acatoday.org/takeaction) (or scan the QR code) to send a letter or call your representative at 202-224-3121 and tell them to "Cosponsor H.R 3654."
